Dear Contact,

Thank you for serving as a collection site for our recent book drive. You have played an important role in our mission of increasing literacy in Ethiopia and awareness of literacy needs here at home.

The Davis Moon serves as a resource for free children's libraries in Ethiopia. The Project organizes literacy missions to deliver books to Ethiopia every 24 months. The missions include 10 volunteers on partial scholarships carrying approximately 4000 books per mission to be delivered to two identified children's libraries in Addis Ababa, Ethiopia.

The Davis Moon Project expresses heartfelt thanks for your efforts to help us achieve our goal of increasing access to books for impoverished children. We have seen firsthand how special a child feels when we arrive with books for them that our mission volunteers hand carried. You have helped us reach out, create self-esteem and pride within these children that will ultimately move them closer to achieving their individual potential. Without the books that you helped collect, their lives are simply focused on survival with no comprehension of another life. Books are the key to reducing the overwhelming poverty in such a hopeful and spirited community of children. Thank you so very much.

Sincerely,
